HUGHES MARGARET LAURA
315 BENITA CRT, OAKVILLE ON L6J 4L3

Dear Ms. Hughes,

**Re: NOTICE OF PROPOSED WIRELESS COMMUNICATIONS INSTALLATION
1301 Foreman Road, Muskoka Lakes, Ontario
Rogers Site C4959 – Port Carling**

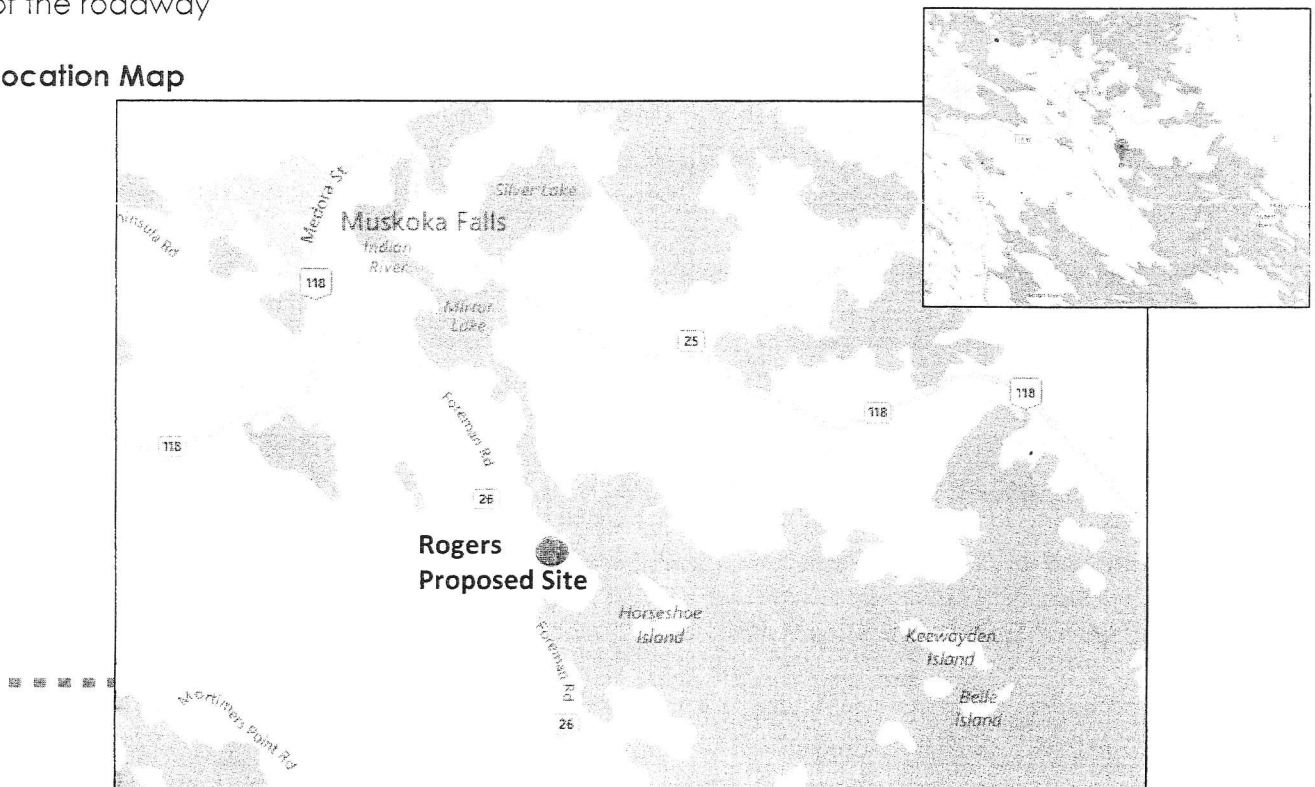

On behalf of Rogers Communications Inc. "Rogers" please find the attached site survey and equipment technical specifications in connection with a proposal to construct a wireless communications installation at the above mentioned location. This letter serves as an invitation to provide comments or questions regarding this proposed installation.

Background Information

The proposed installation is required to provide Rogers customers with improved wireless network coverage for the area along Foreman Road and its surroundings. The site as proposed will provide wireless voice and data services for subscribers to the Rogers and Fido networks.

Rogers proposed installation is to be built at Part of Lot 31 Concession 1, in the Township of Muskoka Lakes and has the municipal address of 1301 Foreman Road, Port Carling, ON. The facility is proposed on the east side of Foreman Road approximately 260m east of the roadway

The Proposed Installation

Rogers has made every effort to decrease the size and visibility of any new installation, for that reason we are proposing a site that would mirror the general location and design of Bell's existing installation in the area. This approach is intended to help mitigate impacts on the surrounding natural landscape.

The proposed installation off Foreman Road is a disguised "monopine" (pine-tree style) communications structure 29.9 metres tall. The installation would feature artificial branches covering the top third of its height. Each branch would extend from the center approximately 4 metres at its widest portion tapering to 1.2 metres at the top of the installation, along with a "tree-top" branch.

Rogers proposes to install as part of this installation, three (3) sectored 2100/2600 MHz LTE and 850/1900 MHz HSPA antennas, and provisions for future technology services. At this location a ground compound area of 15 metres by 15 metres, will include one (1) radio equipment walk-in cabinet with an exterior finish that will blend in with its surroundings on a cast in place reinforced concrete slab. A 2.4 metres chain link security fence would be installed around the base of the installation and would include on locked gate access point.

The geographic coordinates for the site are as follows: Latitude: (NAD 83) N 45° 05' 24.9" & Longitude: (NAD 83) W 79° 33' 46.4".

The property's legal description is: Part of Lot 31, Concession 1, Township of Muskoka Lakes, District Municipality of Muskoka. A site survey of this proposed installation has been included with this notification package for your reference.

Federal Requirements

In addition to the requirements for consultation with municipal authorities and the public, Rogers must also fulfill other important obligations including the following:

Canadian Environmental Assessment Act, 2012

Industry Canada requires that the installation and modification of antenna systems be done in a manner that complies with appropriate environmental legislation. This includes the Canadian Environmental Assessment Act, 2012 (CEAA 2012), where the antenna system is incidental to a physical activity or project designated under CEAA 2012, or is located on federal lands.

Rogers attests that the radio antenna system as proposed for this site is not located within federal lands or forms part of or incidental to projects that are designated by the Regulations Designating Physical Activities or otherwise

designated by the Minister of the Environment as requiring an environmental assessment. In accordance with the Canadian Environmental Assessment Act, 2012, this installation is excluded from assessment.

Engineering Practices

Rogers attests that the radio antenna system as proposed for this site will be constructed in compliance with the National Building Code and The Canadian Standard Association and respect good engineering practices including structural adequacy.

Transport Canada's Aeronautical Obstruction Marking Requirements

Rogers attests that the radio antenna system described in this notification package will be installed and operated on an ongoing basis so as to comply with Transport Canada and NAV Canada aeronautical safety requirements. Rogers anticipates that the proposed installation will not require markings or lighting and will submit the necessary applications to the appropriate parties to obtain required approvals.
