

An overview of some of the expert witnesses called by HESA

Dr. Devra Davis, team member Nobel Prize with Al Gore re climate change

- Damaged and reduced sperm
- ADHD-like symptoms in offspring when pregnant mice exposed to cell phones
- Co-author “The underestimation of cell phone radiation, especially in children”
- See Dr. Davis’s testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-58/evidence#Int-8669184>

Dr. Anthony Miller, visiting senior scientist World Health Org., U. of Toronto

- Links to brain cancer referencing Swedish and French studies
- Overview of recent information re breast cancer
- See Dr. Miller’s testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-57/evidence#Int-8660517>

Dr. Riina Bray, Women’s College Hospital, Dr. Magda Havas, Trent Univ.

- Electrosensitivity can affect 3% of the population in the short term and up to 30% in the long term
- See Dr. Bray’s testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-58/evidence#Int-8668300>
- See Dr. Havas’ testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-57/evidence#Int-8660696>

Dr. Martin Blank Columbia University

- Proof of DNA damage
- See Dr. Blank’s testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-54/evidence#Int-8623650>

Dr. Martha Herbert Ph.D., M.D. Harvard Medical School

- Links to autism
- See Dr. Herbert’s testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-58/evidence#Int-8669089>

Dr. Meg Sears, Children's Hospital of Eastern Ontario, Ottawa Hospital Research Institute

- Health Canada’s recent review of Safety Code 6 fails all major criteria for the evaluation of scientific evidence based on international best practices
- See Dr. Sears’ testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-54/evidence#Int-8623496>

Dr. Dariusz Leszczynski, Adjunct Professor, Department of Biosciences, University of Helsinki

- The previous evaluation and resulting 2B, possible carcinogen designation, in May, 2011, was performed by a working group of 31 scientists from 14 countries under the direction of the International Agency for Research on Cancer (IARC), part of the World Health Organization.
- Health Canada should not rely on the current WHO project.
- See Dr. Leszczynski 's testimony at <https://www.ourcommons.ca/DocumentViewer/en/41-2/HESA/meeting-57/evidence#Int-8661132>
