Please sign on to “Candidates Who Care (CWC) About the Health of Canadians” <https://c4st.org/candidateswhocare/>

Hello [*Name of Candidate*]

I reside in your Riding and I support the efforts of the volunteer, non-profit organization called **Canadians for Safe Technology (C4ST): <https://c4st.org/>**

I’m sure you must have received an email from Frank Clegg CEO of C4ST asking that you sign up to work, if elected to Parliament, to make our country a safer place to live by supporting the full implementation of recommendations passed by the House of Commons Health Committee in 2015.

[*First name of candidate*], please let me know if you decide to get behind this initiative - **Candidates Who Care about the Health of Canadians: <https://c4st.org/candidateswhocare/>**

Please express your support for full implementation of these important recommendations by sending an email to candidateswhocare@c4st.org

Please provide your name, riding and party and that you give permission for this to be posted on the webpage.

You can also email Frank Clegg directly at frank@c4st.org

[*Some names of the **same** party from the webpage who have signed up already and/or other candidates in their riding*] have already committed and I will be contacting the other candidates in our Riding as well.

Your attention to this important public health matter is important to me and will influence the way I vote on September 20th.

Best regards,

[*Your name*]

Postal code if you live in the riding.

Your email (in case it gets lost if this email is forwarded)]
